

Dual Cooling System

-86°C ULT freezer

DW-HL848T

-86°C Ultra Low Temperature Freezer built up by two independent refrigeration systems and the Dual Cooling System offers the highest level of protection, If you stop any compressor by disconnecting it the other can maintain the freezer around the -75°C. Valuable and irreplaceable samples can always be securely stored with the highest confidence even if the compressor fails.

*Temp.Uniformity

*Pulling Down to -80°C

Daily Consumption

*Typical freezer data based on internal testing with freezer setpoint at -80°C and ambient temperature at 25°C.
